1. The fam - i - ly of Jes - us heard ru - mors of ill will,
2. But Jes - us looked a - round at the peo - ple close at hand;
3. The love with which God loves us as sist - ers, broth - ers all

And so they went to find him and urge him to be still,
And smiled with deep com pas - sion at this ex - pec - tant band,
Breaks down the world's dis - tinc - tions and is - sues us a call

His moth - er and his broth - ers, up - set that he should roam,
He asked, "Who is my moth - er? Who would my broth - er be?
To live new life to - gether - this mo - ment to be - gin,

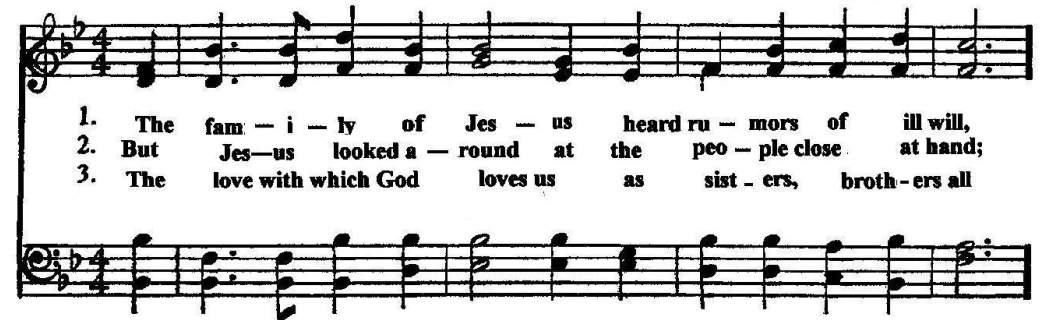

Set out with best in - tentions to come and take him home.
All those who do what God wants are my true fam - i - ly."
To be God's ho - ly fam'ly a - dop - ted as Christ's kin!
